

# **Holiday Craft Faire Electrical Booth Lottery September 28, 2011**

- This year a lottery will be held for the 18 electrical booths. Results will be announced by September 29. Only completed forms will be entered into the lottery.
- Electrical booths will cost \$25. Regular booths are \$20. Payment is due at registration, which starts on October 19. Do **NOT** attach money to this form.
- If you are chosen for the lottery, you will need to attend a meeting to review the rules for electrical booths. The meeting date and time will be announced at school.
- ***IMPORTANT: Electrical booths must all sell different products! This rule is to help sellers and to offer customers a wider variety of options. Depending upon your lottery number, you may need to change your product.***
  - Example: Lottery Number 1 is pot stickers. Lottery Number 9 is pot stickers. Lottery Number 9 would still have an electrical outlet, but would need to sell a different product. Holiday Faire Chairs will work with you to find new ideas.

Specific description of your product, including packaging if selling a food item:
